

RESOLUTION

INSOL India is grieved at the loss of its patron, Shri Arun Jaitley. It was at a get together hosted by him in September 1997, the idea of forming INSOL India conceived. Then onwards, he was with INSOL India, for anything and everything.

It was during his tenure as the Finance Minister of India the best insolvency law India has ever seen, viz., the Insolvency and Bankruptcy Code 2016, came into being. It won't be an exaggeration to say that he was the principal architect of the said Code. Another reformation is the GST Act. Law reforms were always in his mind and that was not limited to insolvency. His untimely death will deprive the country of a brilliant mind, which could conceive and execute reforms with remarkable foresight.

His life as a student leader, versatile lawyer, astute politician and above all a matchless troubleshooter in his party, need no introduction. He was liked and loved by all who came in contact with him.

His eternal departure, that too quite early, is a loss to INSOL India as much as it is to his family. May his soul rest in peace and may God give his family the strength to bear the loss. Our prayers are with them.

INSOL India
